

SEA BUCKTHORN

Novastell has selected active ingredients extracted from Sea Buckthorn

These ingredients, rich in fatty acids, vitamins and polyphenols can be used in nutraceutical supplements **for women health, eye comfort and skin health applications.**

These innovative products, available in oily form or water dispersible powders, are suitable for all formulations: **drinks, sachets, tablets, softgel and hardgel capsules.**

Premium Sea Buckthorn Berries

Sea Buckthorn fruits are small orange berries rich in oil, vitamins and antioxidants.

Health properties of Sea Buckthorn have been highlighted in traditional Asian medicine for centuries.

The preserved environment and the harsh climatic conditions associated with high altitude contribute to the production of **unique Sea Buckthorn products, devoid of contaminants with high contents of nutrients and active components.**

SEA BUCKTHORN

Sea Buckthorn Oils
